

Dear members, guests and fans of JAL.

As you may or may not know Japan Airlines JAL is celebrating its 70th anniversary of starting operations on October 25th 2021. JAL was founded as a company on August 1st 1951 as Japan Air Lines but operations started on October 25, 1951 using a Martin 202 'Jupiter airplane on the Tokyo <> Osaka <> Fukuoka route. The operational start date is the date recognized by JAL as its anniversary.

We at JAL Virtual plan to organize a event to celebrate this rich history, our plan is to have a classic airliner theme event from Tokyo Haneda to Osaka Itami.

However, anyone can fly any airplane in the JAL fleet. This event will be held on VATSIM as a group flight or can be held offline too, your choice. Our desire is to have the maximum number of participants in this event from within JALV and outside too, we want to invite everyone who is a fan of JAL and Japan to participate!

Date + Time: Start from October 24th 2021 at 1200Z (2100JST)

Start Location: RJTT Terminal 1, gates to be decided upon start of event

Route: to be determined upon start of event

Aircraft: any aircraft from JALs history, major theme will be classic aircraft.

Callsign: Will use real world callsign from current and historic schedules to be determined upon start of event.
